

BUYERS GUIDE

**GREEN THEORY DESIGNS
INNOVATIVE PRODUCTS
THAT MAKE A NATURAL
STATEMENT.**

Our products are crafted to create space and capture attention.
We balance bold design with durable materials and eco-friendly
finishes, creating functional and fashionable planters that will
stand up to the rigors of extreme weather.

Planters Perfect

RECTANGLE LOW SERIES

PP-R-L-36

Designed with clean lines and manufactured to last, our customizable Planters Perfect series is built to perform strikingly in any project under almost any condition. They make excellent

accents in both commercial and residential settings and function well when used as modular space partitions, creating architecturally-inspired indoor and outdoor spaces.

YOU MAY NEVER NEED ANOTHER,
BUT YOU'LL WANT ONE.

Our Civilian line offers the ideal balance between design and durability. Made of lightweight fiberglass, these planters can weather conditions from frigid temperatures to excessive heat and are resistant to UV rays, frost and corrosion.

Each design is available in a variety of sizes and finishes including matte and classic patinas. We use the RAL colour code system so you can easily customize the colour of your planter. Larger scale Civilian pieces can be installed with ease.

Ollie

OLLIE PLANT SIPPER

O-PS-L36

Ollie accessories increase the functionality of your indoor and outdoor planters to reduce water consumption and promote plant growth at the roots. The Ollie Plant Sipper is an innovative

self-watering solution. Featuring linkable components that you can barely see, Ollie harmonizes the organic without compromising the aesthetic of your project.

O-PS-L36
36" Linkable Tank

Sizes:
6 sizes available

BURY YOUR ANXIETY
FOR PLANT CARE.

100% water efficient, Ollie is designed to reduce liquid fertilizer concentration by up to 75% and watering frequency by up to 6 weeks. Plant sipper components are portable and can be used in many situations including remote locations, window boxes, hanging baskets, indoor foliage, courtyard installations and hedging.

The capacity of Ollie plant sippers range from 1 to 25 litres and the linkable tanks can be combined to accomodate longer planters.

Coverage varies based on
density: approx 1' x 1' per bag

Filter bags

Our planter drainage system fills a void and filters the soil. Employing a velcro opener, the resealable filter bags are filled with a non-biodegradable 100% Recyclable foam that is lightweight and will not break down. This system is made for all planter styles and is suitable for indoor and outdoor use.

Plant Sippers

Ollie Plant Sippers are an excellent solution for watering plant displays in interior and exterior landscaping projects. Using the process of capillary action, Ollie feeds the plant where it needs water the most – at its roots. They are available in a variety of shapes and sizes to fit the style of your planter.

CREATIVITY WITHOUT COMPROMISE

Green Theory redefines the boundaries of landscape design. We craft versatile planters and accessories that transform spaces into experiences. Taking our cue from nature, we find a balance between beauty and utility that is reflected in the simplicity and functionality of our product lines.
