# Outdoor Play, Fitness and Furniture

**Publisher: KOMPAN A/S**

KOMPAN Group is one of the world's leading manufacturers of outdoor activity areas.

For more than 50 years, the company has designed, manufactured and marketed an extensive range of high-quality playground equipment, outdoor fitness equipment, and outdoor furniture.

KOMPAN® products are sold around the world through KOMPAN subsidiaries, agents and distributors.

**Made Green** means that the products are made of up to 95% post-consumer recycled materials such as ocean waste, used textiles, food packaging waste, used plastic bags, etc. Our Made Green products are made with an approximately 50% reduction in carbon emissions compared to similar traditional products made from virgin sources (depending on the chosen product).

**Born Green** means products are made from natural hardwoods like robinia. Robinia is highly durable and does not require any chemical wood preservatives. KOMPAN Robinia products also come with FSC® certification (C004450)

## SAFETY STANDARDS

Product safety is a long tradition in KOMPAN and we take great pride in testing and evaluating each product before launch.

KOMPAN products meet relevant safety standards depending on the type of product. Playground equipment meets ASTM F1487 and for products intended for users under the age of 2 years, we use ASTM F2373.

Outdoor fitness equipment is compliant with ASTM F3101 and multi-sports equipment meet the European standard EN15312.

Whenever possible, we design worldwide products, meaning the equipment also meets the equivalent European standards and we pick the specifications covering both.

## INCLUSIVE FITNESS

Fitness equipment marked with this symbol can be used by everyone on equal terms independent of gender, age, body weight, fitness, or cognitive skills.

Look for FSC®-certified products on product pages.

The mark of Responsible Forestry.

# CREATING HEALTHIER AND HAPPIER COMMUNITIES

with attractive outdoor playgrounds and fitness sites

A healthy community needs a healthy heart. That heart can be the playground or fitness site, a focal point for meeting, developing, playing, and exercising. It's where strangers become playmates and playmates become friends. It's where adults start conversations, which become life-long bonds. It's where neighborhoods are defined and cities established. Playgrounds and fitness sites bring people together without the boundaries of creed, culture, or age.

## **Local pride, trust, and love**

Playgrounds and fitness sites are places where embarrassment, fear, and unease should melt away in an atmosphere of local pride, trust, and love. It's where children and adults become engrossed in activities that require physical commitment and peer-to-peer communication and in doing so acquire skills and improve their physical fitness – both things that will support them for the rest of their lives. In the fresh air, people get 100% recharged.

At KOMPAN, we value concepts that are universal in design and purpose. It's our starting point regardless of whether it's for a four-year-old rocking on a Crazy Hen, or a sixty-year-old working out on a cross-trainer. Playgrounds and fitness spaces are central to the well-being of a community. Even more so when, side-by-side, children play while adults, young and old, strive for a new level of personal fitness. It's a healthy life in full circle.

## **Access is for all, inclusive play and fitness**

The playgrounds and fitness sites should be the center of a broad community. There are no "exclusive zones" that might isolate or stigmatize. Each playground and fitness

site mirrors the needs of those who use it, whether it's to play, to exercise, or just sit and watch the next generation grow.

That is the KOMPAN view of the perfect way to build a community, healthy in body and mind. A community enjoying a bright today with a brighter tomorrow on the horizon.

↑ ACCESS IS FOR ALL

Fitness spaces are central to the well-being of communities.

← THE CENTER OF A BROAD COMMUNITY

Playgrounds bring people together without the boundaries of creed, culture, or age.

#### ← STAY FACTOR

'Oh no, not yet' is the expression we most love to hear in response to the suggestion to head home. It epitomizes the STAY Factor. Each time a play feature is approached, it should be a fresh encounter, open to new interpretation. The STAY Factor nurtures social interaction, inspiring children of all ages and abilities to stay and play longer.

#### ↓ WOW FACTOR

The eyes wide open to capture the full scene, the mouth forms an O, taking in more air in expectation of action, the legs run wildly in search of adventure. This is the WOW Factor, the moment of arrival at the playground that distinguishes a KOMPAN design from all others. It satisfies the child's instinctive demand for change, variety, and advancement. The constant cry for something new and exciting is only successfully met by triggering that initial WOW.

# PLAY THE KOMPAN WAY

Described in three little words: WOW, STAY, DEVELOP

**WOW** KOMPAN's unique solutions attract more users, make them stay longer, and make them return again and again. Whatever we develop, we develop together with our users. WOW, STAY, DEVELOP, three

distinct factors that are molded into every KOMPAN solution and radiantly displayed in the happy faces of each new generation. Play is the open door to the future.

## ↑ DEVELOP FACTOR

Play isn't just about having fun. Behind the laughter and joy is development: personal, cooperative, and competitive. The DEVELOP Factor is the endless mission of the KOMPAN Play Institute experts. These specialists craft ways of developing motor skills, coordination, and balance. Intellectual learning is equally vital, with cognitive development, communication, language expansion, and understanding of how to turn the germ of an idea into a successful conclusion.

# PLAY VALUE GUARANTEED

At the KOMPAN Play Institute, we have studied childhood development and children's outdoor play for four decades

Play is vital for child well-being and life skills, be it for a toddler or a teenager. So, KOMPAN playgrounds are carefully designed to motivate all children to play; to play relentlessly again and again, while developing important life skills and also friendships. Children need play stimulation for their physical, cognitive, creative, and social-emotional development. This is why

the WOW-STAY-DEVELOP philosophy is in our DNA and in all our playgrounds.

KOMPAN Play Institute is our driver in this: conducting research, making user workshops, developing and testing with users, and making sure that innovative projects represent the KOMPAN play philosophy.

**1** With action cameras and movement screening, we study what triggers children to play, and to continue playing. We learn what makes children play, move, talk, and cooperate. This informs our product design to stimulate the social-emotional skills, language, and communication.

**2** Science and universities are a major source of our fundamental research and knowledge. We cooperate with universities and draw on this in all product development. The collaboration takes several forms, such as joint industry PhD students.

**3** To constantly stay on top of new research, KOMPAN Play Institute participates in conferences, building networks to share and gain insight and knowledge.

**4** Children are the experts in what motivates them to play and what they like to play. Their preferences develop with age and with cultural changes. We conduct workshops where children share their ideas on playgrounds and give us feedback on our newest ideas.

**5** Prototypes are tested at their earliest stages in order to prove and perhaps improve relevance. This helps fine-tune important basics, like the placing of components and creating interaction in teamwork.

**6** When children play in their outdoor setting and on their terms, they use play features differently from a laboratory setting. We install prototypes in kindergartens and schools to ensure that the children truly get the benefit we intended and that they deserve.

## 6 PROTOTYPES IN THEIR NATURAL HABITAT

# KOMPAN PLAY AND FITNESS FOR ALL AB

KOMPAN Play Institute and KOMPAN Fitness Institute work on science-based, user-test informed equipment, and design recommendations

We humans need play and exercise for our health and well-being. Play is a human right for children and closely connected to their well-being and positive development. At KOMPAN, we encourage all children to experience and enjoy the physical, social-emotional, and creative learning benefits of playgrounds.

Inclusive play and fitness are at the very core of everything KOMPAN aims for. The result is universal design that embraces the needs of all. In inclusive universal play-

grounds and fitness sites, everyone can play or exercise with peers, with parents, in groups, or individually, regardless of their abilities or disabilities.

This design philosophy is acted out in KOMPAN's playgrounds and play equipment as well as in our fitness grounds and fitness equipment. Everyone can take something positive out of a visit to a KOMPAN play and fitness site. Health, like play and well-being, is for everyone.

## Fitness areas for all:

Principles for inclusive outdoor fitness:

- Accessibility
- Ease of use
- Adjustability
- Products having clear color and design signals
- Multi-functionality (when possible)
- Combining general and specific functionality

USABLE FOR ALL →

The multi-level activities of the fitness products make them usable for all.

Read more and download on  
[www.kompan.com](http://www.kompan.com)

# ILITIES

## UNIVERSAL DESIGN

The ergonomic and user-tested design of the seat ensures usability for persons with mobility disabilities. The upright seat position allows for an overview of the playground along with eye contact and communication with the person pushing the swing. The harness system provides security for all users.

Of course, as individuals, we all have limits. Inclusive playgrounds and fitness areas cater to that and offer playful and inclusive ways to reach and pass those limits and perhaps reset the bar, to advance and grow.

Download the white papers on inclusive design research and recommendations for playgrounds and fitness grounds from our webpage: [www.kompan.com](http://www.kompan.com)

## Playgrounds for all:

Accessible, inclusive, and usable in play:

- Is it developed with users?
- Is it spacious and can it accommodate different body positions, sizes, and abilities?
- Is it thrilling, challenging, and pleasurable?
- Is it rich in play variation: Sensory, physical, social-emotional, cognitive-creative?
- Is it transparent and has a 360-degree design: Play all around?

### ↑ RICH IN PLAY VARIATION

Sensory, physical, cognitive-creative, and social-emotional stimuli.

### ↑ MULTI-FUNCTIONAL

Spacious and supportive of different body sizes, positions, and abilities.

# Join our green journey!

Making the future's playgrounds carbon neutral

More than 80% of our carbon emissions from building playgrounds come from the raw materials. Therefore, all raw materials that can be replaced with post-consumer recycled waste sources have been replaced. From January 2024, our playgrounds will be made from components with up to 95% post-consumer recycled waste sources.

## No need to choose green – we have chosen it for you

Using post-consumer recycled waste sources has been integrated into the core of our business. No matter what playground product you choose, it will have a greener profile, with components containing up to 95% post-consumer recycled waste. Before, virgin materials like plastic took up most of the space, but now the roles are reversed, putting waste sources in the lead.

Together we can lower carbon emissions and secure a playful future for our children.

Made Green means that products are made of up to 95% post-consumer recycled materials such as ocean waste, used textiles, food packaging waste, used plastic bags, etc. Our Made Green products are made with an approximately 50% reduction in carbon emissions compared to similar traditional products made from virgin sources (depending on the chosen product).

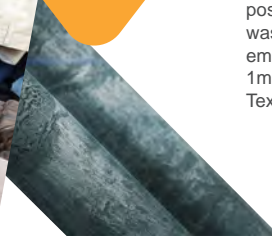

Born Green means products are made from natural hardwoods like robinia. Robinia is highly durable and does not require any chemical wood preservatives. KOMPAN Robinia products also come with FSC® certification (C004450).

**-74%\***  
CO<sub>2</sub>e/kg

Using TexMade™ posts made from >95% post-consumer recycled textile and plastic waste instead of steel posts reduces carbon emissions by 74% CO<sub>2</sub>e/kg when comparing 1m steel post (2mm pipe thickness) to 1m TexMade™ post.

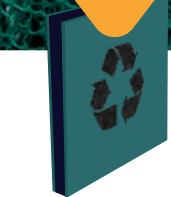

Using EcoCore™ HDPE panels made from >95% post-consumer ocean recycled waste instead of panels made from virgin plastic reduces carbon emissions by 82% CO<sub>2</sub>e/kg

Using BLOQX™ panels made from 75% post-consumer ocean recycled waste instead of virgin plastic reduces carbon emissions by 68% CO<sub>2</sub>e/kg on the panels.

**-82%\***  
CO<sub>2</sub>e/kg

**-68%\***  
CO<sub>2</sub>e/kg

**-82%\***

Validation of CO<sub>2</sub> calculation

BUREAU VERITAS  
HSE Denmark A/S

# Validated CO<sub>2</sub>e calculations

For many years, we at KOMPAN have been working with sustainability and environmental concerns in our product development and we do not take shortcuts in our approach to this incredibly important aspect of design:

- We work with Bureau Veritas who validates our method for calculating carbon footprints.
- We enable customers to choose lower carbon emissions by choosing products that are either Made Green or Born Green.

We make carbon footprint data available for all standard products for comparison of carbon emissions data – Made Green or Born Green products versus traditional products.

# Made from raw materials with lower carbon emissions

Made Green from post-consumer waste or Born Green from nature

## TEXMADE™

posts are made from >95% post-consumer recycled textile and plastic waste – Made Green

## OCEAN GREEN PANELS

in the color Teal are made from >95% post-consumer ocean recycled waste collected from the maritime industry such as fishing nets, ropes, and trawl nets – Made Green

## BLOQX™ CLIMBING PANELS

are made from 75% post-consumer recycled waste from household waste and the Teal color version is made from ocean recycled waste only – Made Green

## ROBINIA PRODUCTS

are made of robinia wood from primarily FSC®-certified (C004450) forestry that develops so much oil when growing that it is self-sustaining and very long-lasting – Born Green

## COLORED PANELS

in EcoCore™ HDPE are made from >95% post-consumer recycled waste, including the colored cap layer – Made Green

## DECKS

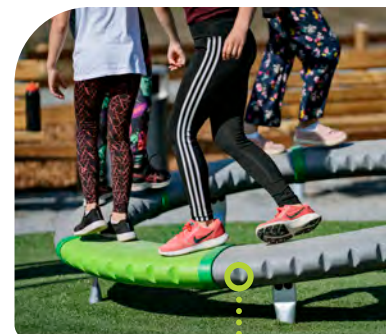

are made from 75% post-consumer recycled waste – Made Green

## EXTRUDED ALUMINUM

profiles are made using low-carbon aluminum – Made Green

## COLORED ROTOMOLDED COMPONENTS

used for Supernova, Spinner Bowl, Tipi Carousel, etc. and made from 33% post-consumer recycled waste from household waste. The Teal color version is made from ocean recycled waste only – Made Green

and see video

## Most beautiful and timeless play and fitness designs

KOMPAN was born out of art. Half a century ago, sculptor Tom Lindhardt observed children playing on his artistic creations. Tom turned the process full circle to allow playgrounds to become beautiful and timeless, like art objects. In the succeeding years, the little Homo Ludens figure, the KOMPAN symbol, has become the iconic mark of inventive quality, the logo that says, 'this is the art of playing.'

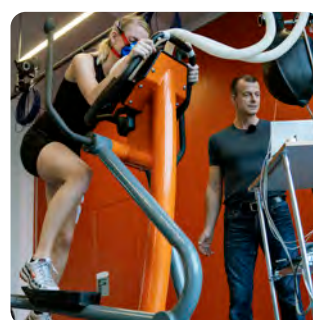

## Most playful and developing play designs

Children are like snowflakes, externally similar yet singularly different. With KOMPAN design, the diverse elements demanded by children, the thrills of speed, height, space, and the importance of role-play and comradeship, are built into every module. The playgrounds themselves are like snowflakes, clearly recognizable but always different. Our aim is threefold: to create a WOW reaction that stimulates a desire to STAY and, through play physically and mentally, DEVELOP. Read more about this on pages 6-7.

## Outdoor fitness that actually makes an impact

Exercise and fresh air, natural partners, and the universal formula for feeling good. Today we are aware of the positive results of physical exertion. Our 21st-century lifestyles demand it, but to get it right takes a scientific approach to what to do, how to do it, and what to do it on. This is where design meets reality. We collaborate with sports physiologists and physiotherapists as well as universities and sports researchers to make sure we deliver perfect and impactful outdoor equipment.

### Tailor-made solutions

We know that our customers are different and want something different from their playground or fitness space: aesthetics, themes, age groups, number of children to be able to play at the same time, etc. A theme park may want to make a WOW playground in order to attract children. A school may want a very physical playground where children can burn energy in order to concentrate better during lessons. So our architects, landscape architects, and designers tailor solutions for you, your users, your environments, and your wants.

### Most unique play landmarks by KOMPAN Design Studio

When is a playground not just a playground? When it is one of a kind. KOMPAN's Design Studio creates built-from-scratch playgrounds and fitness areas that are tailored to say something about the community they serve. They are landmarks, as distinctive as a gift of nature, or an architectural gem. From USA to France, from Germany to Singapore, these are unique statements from communities wishing to stand out, ready to make their mark.

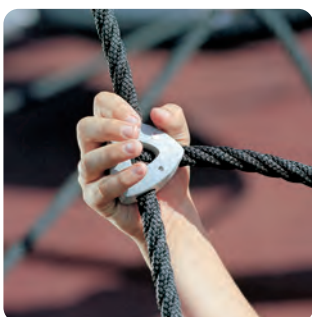

### Inclusive, universal design for play and fitness

In KOMPAN playgrounds and fitness sites, everyone should feel included. Regardless of their physical or mental ability, play and fitness are for everyone. The human need for play, physical activity, and social interaction across abilities is what we plan for. We build facilities that aren't merely accessible, but are intentionally inclusive and usable by all to the greatest possible extent. Universal inclusive design means a stigma-free playground for everyone. Read more about this on pages 10-11.

### Your preferred partner from idea to play can begin

Building a playground may sound as easy as playing, but can be a very complex and complicated process. We are ready to take the burden off your shoulders and be your partner in the process. We help you find the best products and best layout for you, your users, and your site. We make sure that the new site is a safe and a lovely place to spend hours and hours. We make sure that everything gets to site on time, clearing the site, digging foundations, installing products, installing the safety surfacing, and building paths, fences, benches, etc.

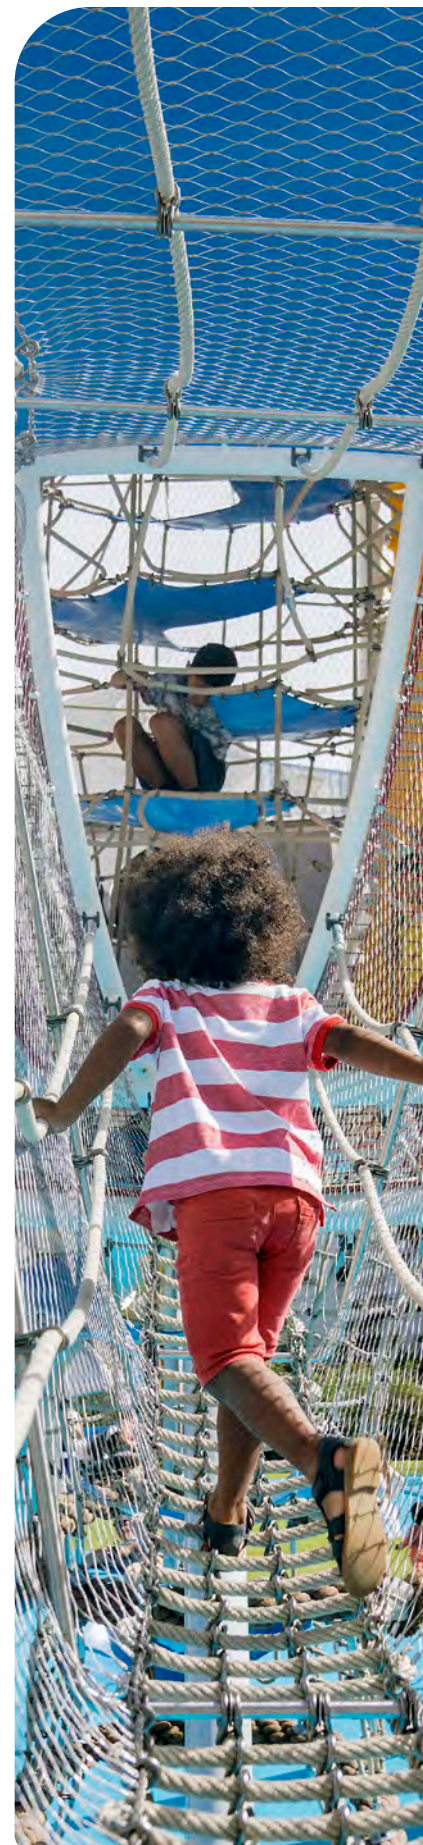

### THE HIGHEST QUALITY

Playgrounds have to stand the wear and tear of weather and heavy usage. A KOMPAN site is made from the highest quality materials that require less maintenance allowing the equipment to stand the test of time and look inviting for decades to come. This way, users get as many hours of joy as possible. Read more about this on pages 20-21.

Read more

# HIGHEST QUALITY MATERIALS

Built to last

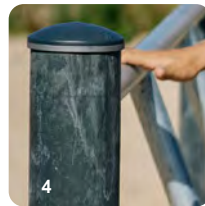

All playgrounds face the trials of weather, use and abuse, and will eventually succumb to the ravages of time. That day can be postponed by using the finest of mate-

rials and clever designs. Quality costs, but quality also lasts. A simple equation that in the fullness of time, pays dividends.

## PLAY PANELS

The 19mm EcoCore™ panels are a highly durable and eco-friendly material, which is not only recyclable after use, but also are made from >95% post-consumer recycled waste.

## POSTS

Main posts are available in four different materials.

1. Impregnated pine wood with in-ground steel footing.
2. Galvanized steel with powder-coated top finish.
3. Color-anodized, lead-free aluminum, made from low-carbon aluminum.
4. TexMade™ posts made from >95% post-consumer recycled textile and plastic waste.

## DECKS

All decks are supported by uniquely designed low-carbon aluminum profiles with multiple attachment options. The gray-colored molded decks are made of 75% post-consumer PP material with a non-skid pattern and texture surface.

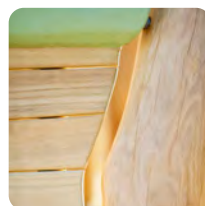

## GALVANIZED STEEL

Our steel surfaces and steel frames consist of a hot-dip galvanized inside and outside with lead-free zinc according to global safety standards for playground equipment. The galvanization has excellent corrosion resistance in outside environments and is maintenance free.

## HERCULES ROPE

Ropes come with galvanized six-stranded steel wires and a steel core, impossible to wear through. Each strand is tightly wrapped with PES yarn in >95% post-consumer recycled material, which is melted onto each individual strand, making the ropes highly wear and vandalism-resistant.

## ROBINIA WOOD

Robinia wood is a very strong and long-lasting material with very high levels of natural oils. Thus Robinia wood makes durable playgrounds almost maintenance free able to last for many years.

# WARRANTY

We have industry-leading warranties

## LIFETIME\* Warranty

- Hot-Dip galvanized parts
- Stainless steel parts
- EcoCore™ and other high-density polyethylene (HDPE) parts

## 15-year warranty

- High-pressure laminate (HPL) parts
- Aluminum parts

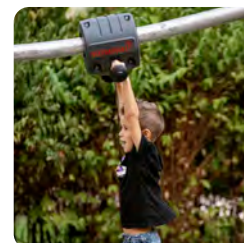

## 10-year warranty

- TexMade™ posts
- Pre-galvanized posts with painted top layer
- Painted surface on galvanized or aluminum metal parts
- Stainless Steel Slides
- Electrogalvanized metal parts
- Molded PP decks
- Solid plastic parts
- Hollow plastic parts
- Transparent Poly Carbonate (PC) parts
- Rope and net constructions
- Wood-plastic composite (WPC) parts
- Robinia, ash, pine, and other wood types

## 5-year warranty

- Resin coated plywood parts
- Springs and ball bearing assemblies
- Graphic print on transparent PC panels
- Concrete parts
- Galaxy Connection Balls

## 2-year warranty

- Moveable plastic and metal parts
- Rubber membranes
- Screens and electronic parts
- Sunshades & sail solutions
- Nylon nets
- Spare parts

\* KOMPAN's LIFETIME warranty is in effect for the lifetime of the product until the product is uninstalled and/or taken out of use. In addition, KOMPAN's general terms and delivery conditions apply and supplement this warranty.

## WARRANTY COVERAGE

This warranty applies to KOMPAN's products for the time periods described for each product type above and with the limitations described in this warranty. The warranty period applies from the date of purchase by the first customer. This warranty covers only defects in materials, production errors, and structural integrity failures caused by defects in design, materials, or manufacturing. KOMPAN's liability under this warranty is limited to repair or replacement of defective products, without charge, at KOMPAN's discretion.

## PROPER INSTALLATION AND MAINTENANCE

The warranty only applies if KOMPAN's products have been installed according to the instructions provided by KOMPAN and maintained correctly according to the KOMPAN Maintenance Manual. All warranty claims shall be accompanied by full documentation for proper installation and maintenance.

## WARRANTY EXCLUSIONS

This warranty does not cover any damage caused by accident, improper care, negligence, normal wear and tear, surface corrosion on metal parts, discolored surfaces, and other cosmetic issues or failures due to misuse or vandalism. Natural changes in wood over time are considered cosmetic issues and are not covered.

## NEAR WATER INSTALLATIONS

Products installed in direct contact with chlorinated water or saltwater (water-parks), or products installed within 650 feet from the shore are not covered by the KOMPAN warranty for any defects caused by corrosion. Specially designed products (handled via department for customized products), provided they have been upgraded to corrosion class C4 prior to delivery, installed within 650 feet from the shore (and not in direct contact with saltwater/spray of saltwater or chlorinated water(e.g. waterparks)) shall, subject to the applicable warranty period for each product type set out in the general warranty, be covered only against structural failure caused by corrosion (excluding moving parts) and under no circumstances for any period longer than 5 years.

## THIRD-PARTY SUPPLIED PRODUCTS AND SERVICES

KOMPAN provides non-KOMPAN branded products and installation services performed by certified third-party suppliers. This general KOMPAN warranty does not apply to such non-KOMPAN branded products and installation services, which may carry their own warranties. KOMPAN will pass on information on such warranties where possible.

## FREIGHT AND WAREHOUSING

Global transport and logistics arranged by Kompan appointed forwarder. Products/items are not to be stored outside waiting for installation and must be kept dry at all times.

## SAFETY STANDARDS

*'In the interest of playground safety, the International Play Equipment Manufacturers Association (IPEMA) provides a Third Party Certification Service whereby a designated independent laboratory, TÜV SÜD America Inc., (TÜV), validates an equipment manufacturer's certification of conformance to the ASTM F1487 Standard Consumer Safety Performance Specification for Playground Equipment for Public Use, except sections 7.1.1, 10, 13.1.1, 13.1.2, 13.2, and 13.3; to CAN/CSA Z614 Children's Playspaces and Equipment, except clauses 10 and 11; or both. A list of current validated products and components may be viewed at [www.ipema.org](http://www.ipema.org).'*

Visit [www.ipema.org](http://www.ipema.org) to learn if products are IPEMA-certified.

# MAKE YOUR SPECIAL PLACE COME TRUE

KOMPAN Design Studio designs and constructs unique landmark playgrounds

Across the world, communities and companies want to create landmark locations that bring children, adults, and communities together and function as great destinations for visitors.

At KOMPAN Design Studio, we understand that our focus on WOW, STAY, and DEVELOP is essential when designing and building landmark playgrounds.

The location must be beautiful; but it must also be fun and challenging. Utilizing our

special architectural and engineering experience and skills at KOMPAN Design Studio and combining this with our KOMPAN Play Institute competencies, we create the most attractive and fun landmark and destination playgrounds. Playgrounds that children and adults want to stay at, come back to – again and again – and talk about as great destinations to visit.

# TAILOR-MADE

## Understanding your dream

A school may want a play sculpture that symbolizes wisdom and learning. A local community may want their play

sculpture to tell a story about the community, connecting one generation to the next.

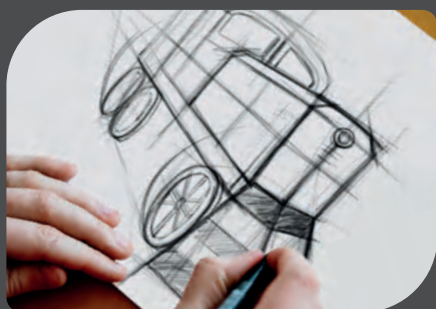

### 1 FINDING THE PERFECT CONCEPT

Together we find the perfect concept for your story. For example, we can conceptualize a train station for a station town or a municipality that wants to signal something with train transportation.

### 2 RESEARCHING THE CONCEPT

Next, the design team will study the phenomena in order to find the features that visualize your story the right way. For train transportation, a freight train could be key.

### 3 SKETCHING DESIGN IDEAS

The first sketches are made and delivered to you in order to test ideas and find the perfect design for you.

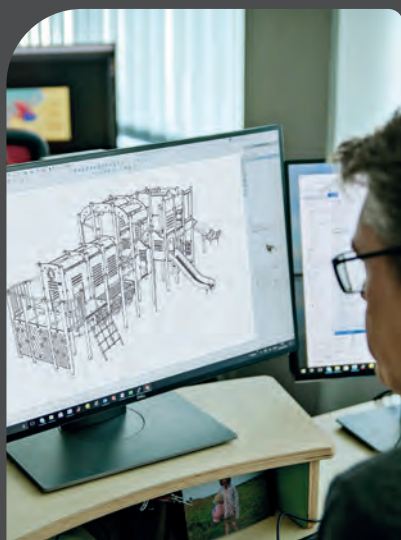

### 4 LOADED WITH PLAY

Your play sculpture is loaded with the portfolio of play features that we have invented throughout half a century.

### 5 BUILDING THE PLAY SCULPTURE

Our engineers make sure that the static structure is safe and sound. We use the highest quality materials in order to build a landmark that lasts for decades.

### 6 THE FINAL PLAY STRUCTURE

Based on the initial idea, created by skilled designers, engineers and craftsmen, the final play structure is now ready for children to come and play at for hours and hours.

# KOMPAN DESIGN STUDIO

Turning themes, ideas, and stories into play landmarks

For more than a decade, we have built tailor-made and highly unique destination playgrounds that WOW, inviting children and adults to come and play. They come in all kinds of themes and can be customized to your local community, or to fit a specific environment. Always loaded with the play activities we have developed over half a century.

The structures are made of highly durable and vandalism-resistant materials that make them last for decades to come. Also, they are safe and certifiable like all products that we have built over the past 50 years.

**NEW**

**ROBINIA FANTASY** See page 238

### Shaped by nature

Each Robinia Fantasy structure has its unique appearance. Natural variations will also occur.

### Charmed Colors

All play structures are available with an enchanting color palette in muted green hues.

# ESCAPE TO THE FOREST OF FANTASY

Welcome to the enchanting universe of Robinia Fantasy

These fantasy-themed play structures bring the forest closer to the playground in the name of play and imagination. The Robinia Fantasy universe is designed to spark children's imagination and encourage them to engage with the organic order of nature.

The quirky expression of the play structures is unique and entirely on nature's

terms, and this creates a lasting attraction for children and adults alike. The signature posts have a wonderful authentic wood grain pattern from when they were forested in their natural state.

Packed with play value, children of all abilities at any age are in for an intriguing adventure as they explore the magical world of Robinia Fantasy.

## DECK-TO-DECK ACCESSIBILITY

The structure can be entered via wooden ladders or from the deck-to-deck entrance, enabling access for varying ages and abilities.

## ↑ TRIPLE THE FUN FOR THE LITTLE ONES

The double-sided play panel's interactive qualities encourage parents, caregivers, and little friends to join the play and create shared memories.

## ↑ SIGNATURE POSTS AND ROOFS

The rustic posts, crooked roof, and overall organic aesthetic embrace and enhance the fantasy theme.

↑ **STEPPING STONES**

Embarking on a large play structure can tire little legs. Small platforms along the trail enable a rest to gather strength and work as a stepping stone to the next play hurdle.

↑ **WAVE STEPPER**

Expand ground-level play with interconnecting add-on playground equipment. The Wave Stepper offers gentle bouncy movements that train balance and give an understanding of cause-and-effect.

↑ **PLAY FOR THE ENTIRE PRE-SCHOOL AGE GROUP**

Whether three or six-years-old, the thrill of taking steps into the unknown creates a sense of achievement. Age appropriate challenges are integrated into the play structure, meaning the Monkey Trails Mini will continue to grow with the children as they develop.

# EXPLORE THE TRAIL OF PLAY

Trailblazing climb-and-crawl structures for the youngest

As young children approach the Monkey Trails Mini, their eyes widen in awe of its vibrant design. They are instantly drawn to the bright colors and familiar themed-play shapes that ignite their curiosity. Bouncing surfaces, rope play, and explorative features create response and wonder, which are great play motivators.

Children who experience playgrounds with manageable, age-appropriate, and fun play events gain essential social-emotional life skills and develop fundamental motor skills. Ground-level hurdles, tunnel logs, and play panels entice children to play again and again.

# A MINI DOME OF AWE

Enter a world of climb-and-crawl for little explorers

The Mini Dome is a wondrous climb-and-crawl structure designed for little explorers. With pleasantly swaying rest points, gently bouncing climbs, and intriguing play panels, this downsized dome structure is big on play value for two to five-year-olds. Play is accessible from all sides and the structure's transparency ensures a sense

of security when children crawl and climb to the top. Parents and caregivers are always close by. At ground level, they can play hide-and-seek or peek-a-boo beneath the structure and the abacus and mirror play panel ensure hours of exploration, developmental learning, and play.

## ↑ PLAY SHELL CLIMBERS

The Play Shell Climber is a multifunctional, free-standing climbing and hang-out module where children can retreat and pause.

## ↑ CLIMBING IS IMPORTANT

Especially in the early years, climbing is an essential skill for a child to master. Climbing develops cross-coordination skills, stimulating the child's brain and helping them learn how to read.

## ← COLOR OPTIONS AND FLEXIBILITY

The new Monkey Trails Mini structure is available in three vibrant standard colors – red, blue, and green – and offers exchangeable activities that expand the trail and challenges. You can also combine the Mini Dome and Monkey Trails Mini into one amazing play structure.

**NEW**

**ROCKET ROLLER** See page 139

# NEED A NEW PLAYGROUND BOOSTER?

The Rocket Roller is great for activating under-utilized play spaces

**■** The enticing shape of the Rocket Roller has a supreme skill in capturing playful children. The inclination allows children to control the rotation speed with pushing and pulling motions, challenging their

proprioception and spatial awareness. The Rocket Roller is all about finding the center of gravity, togetherness, and the need for speed.

## 3, 2, 1, LIFT-OFF →

The Rocket Roller is the perfect way to activate under-utilized spaces in your school, the park, or recreational areas. Whether having fun alone or with friends, the Rocket Roller is such a blast.

## ← AIM FOR THE STARS

Freestanding playground equipment allows you to add a unique flavor to smaller play spaces or freshen up a public playground area at a relatively small cost. They are great as stand-alone play features and offer great flexibility and versatility in the playground layout.

↑ TRACTOR FUN

The all-wooden tractor cabin frame holds lots of play activities. Climb through the rear wheels, hide in the engine hood, or use the rear slide to unload hay bales.

← READY FOR TAKE-OFF

Nothing beats flying, unless it's flying with your favorite co-pilot.

# INSPIRE REAL-LIFE ROLE-PLAYING

Make playtime educational as well as fun with transportation-themed playground equipment in robinia wood.

Our new transportation-themed play structures tickle the imaginations of children. Including airplanes, a tractor, and other types of vehicles in your playground allows children to imagine themselves in real-life situations. Pretending to be a farmer or a pilot ignites their creativity and ability to embrace their surroundings.

Engaging in this type of role-playing develops their language and social-emotional skills and encourages and provides hours of stimulating and adventurous play.

# A BOUNDLESS CLIMB

Feel the thrills and vibrations of the Nimbus Cloud

Like a ground-level nimbus cloud, this amazing net-climbing sculpture hovers intriguingly, attracting children and adults alike. The softly bouncing Coromesh spurs cautious walks and crawls on the outside and wild climbs on the inside. Whether

embarking on a thrilling play journey from an easy access point in the middle of the sculpture, or a more challenging climb from the outside, children will feel like they are bouncing in the sky.

**↑ HAVE A HOVERING BREAK**

On the way to the hang-out spot at the top, children can pause on swaying triangle plates dispersed in the net.

**↑ CHALLENGING ACCESS OPPORTUNITIES**

Get ready to enter the climbing structure via vertical ropes with climbing discs or steep nets. The Nimbus Cloud offers lots of challenging climbs at all levels.

**↑ A BURST OF COLOR**

Hang out, relax, and sway at ground level before embarking on the colorful urban jungle nets. Nothing softens a concrete jungle like a vibrant, colorful climbing structure.

# BE INSPIRED

The following pages provide inspiration on how to plan a playground with play activities, intergenerational play, age-appropriate play, and play zones.

# CAMPING ADVENTURE

## PLAY SOLUTION

While parents set up the camper, children can laugh with excitement as they enjoy the playground! Children can meet new friends at the campground as they play on the many options for spinning, bouncing, and swinging.

This is a playground that's sure to attract children to come and play, hang out, and have fun.

# PHYSICAL CHALLENGE

## PLAY SOLUTION

Thrill is the key motivator for physical play and this playground is designed to let children enjoy the many modes of thrill. The play structures in this play area are immensely fun and thrilling.

The physical play challenges provide excitement in various ways, catering to different preferences and abilities. Children can go from one thrill to the next and be absorbed in play for hours.

# EARLY CLIMBING ROPE PLAY

## PLAY SOLUTION

When the little ones explore this vibrant, colorful jungle of rope play and “climb and crawl”, they slide, balance, and crawl through gently bouncing activities that create a response, wonder, and joyful laughter. Exploration is limitless as the standalone play elements seamlessly connect, offering simple yet fantastic ways to enhance playground activities. Rope play activities for younger children entice an “I can do this” attitude, improving self-confidence and self-esteem.

The transparency of these structures create a thrilling experience of height, but with parents or caregivers still in sight, it's a safe experience.

# TODDLER'S PARADISE

## PLAY SOLUTION

The Toddler's Paradise is a safe world of play for toddlers. Shown here in a classic courtyard, it would also suit a kindergarten, a park, or a public square. The playful themes and colors invite children to play. The play equipment is placed on different sides of the "river", which adds extra play stories.

The variation of play equipment provides multiple ways of playing. The playground makes space for social play, role-play, and the opportunity to play alone.

# AFRICAN SAFARI

## PLAY SOLUTION

The African Safari theme includes zoo animals to stimulate language development when children name animals and use them for dramatic play.

There is sensory play for the youngest and lots of rocking, balancing, spinning, sliding, and swinging opportunities. There are thrilling play activities that support body confidence for the soon-to-be teenagers.

The safari theme, with its different play activities, attracts children aged 1-12 years.

# SPACE TRAVEL

## PLAY SOLUTION

To be an astronaut, one has to be in excellent physical condition. The Space Travel theme calls upon children to be physically active, spin on the planets, climb structures, and jump from star to star. The Space Travel playground also inspires conversations about space, the physics, gravity, etc. As the majority of play takes place at ground level, or close to ground level, children with disabilities can be part of the play.

The many different activities in this design will make this playground an active place to play. Not only can it activate many children at the same time, but the many social and physical challenges will also keep them active for a long time.

# URBAN JUNGLE

## PLAY SOLUTION

The Urban Jungle brings jungle fun into the city. This is where children can swing, climb, spin, and even rotate. The Urban Jungle fits well into any urban environment but can also fit into a school playground, a park, or a campground.

The area offers numerous physical activities that enable children to engage in various forms of active play, and the swings provide an enjoyable space for children to socialize while having fun.

The Urban Jungle is full of dynamic equipment that will develop children's cross-coordination skills and their sense of balance. Fundamental skills that support the ability to focus and navigate, including confidently managing street traffic.

# PIRATE BAY

## PLAY SOLUTION

The pirate ship has been followed by cyclones and dolphins. Now it is entering the harbor of the bay. The sailors have put the boat in the water and set sail towards the small village. On the beach, the inhabitants are ready to meet the sailors. Children's fantasies can take many forms. The robinia play structure matches many environments. It complements the natural surroundings of a park and mends the hard feel of urban environments.

The many different themed play activities will retain children for hours as they create their own play stories. Pirates, shipwrecks, inhabitants of a secluded village in the jungle...only the imagination sets the boundaries.

# ROBINIA FANTASY

## PLAY SOLUTION

Deep in the Forest of Fantasy is a magical play space with charmed play structures. Packed with play activities, children of all ages and abilities are in for an exhilarating play experience as they explore fantasy-themed play activities. In the universe of Robinia Fantasy, children must slide, climb, hide, balance, and jump to avoid an eternal no-play spell. Unbeknownst to the Warlock, children strengthen their coordination and agility while venturing

through the obstacles of the play structures, enabling them to resist the spell. This solution is packed with numerous play activities, challenging children on their way through the realm of fantasy, where imaginations run free.

# WILD JUNGLE

## PLAY SOLUTION

The Wild Jungle is designed for a natural atmosphere. The gentle, wooden look allows this play design to fit into and enhance any natural setting or even help bring a natural feel into an urban environment. The jungle theme inspires children's natural instinct to play.

The versatile play options keep children occupied for hours on end. While the children play and have fun, their skill sets develop from

the many different types of play – physical, social, and cognitive. The children train their sense of balance, cross-coordination, and social-emotional skills while having fun. Many of the activities and the playground layout include children from 2 to 12 years and of all abilities.

# GOLD RUSH

## PLAY SOLUTION

The old gold mine from the past is still standing. The natural wood material makes for a nice contrast in an urban environment. This theme fits into all kinds of different contexts.

The varied areas, play equipment, and surfaces invite different activity levels and play scenarios. This makes the playground appealing to children of varying age groups. Dig in the sand and rinse the sand away in the water to find small gold pieces. Edges and sitting areas provide parents and grandparents the opportunity to be part of the activity.

The Gold Rush theme will inspire children for dramatic play, which stimulates language development and social interaction. The playground is inclusive for children of all abilities.

## Equity in play and ramped solutions

For some play solutions, ramps are the best way to provide usability and accessibility for children or caregivers with different abilities. KOMPAN GIANTS ramp solutions are modular and can be accessed from ground level and up, or from an elevated level, utilizing the other landscape features to ease access.

Contact us for more information and let us help you create an exciting ramp solution and inclusive play environment.

# TODDLER MULTIPLAY

## Colorful Play for Toddlers

Playing is how toddlers learn about the world around them. They practice new skills, explore their imagination, and make new friends. Familiar themes create playful conversations and the elevated playhouses provide a physical climbing challenge with an area underneath for a play break.

Toddlers can safely explore and find their place in the world playing on a Multiplay structure.

# STORY MAKERS™

## Storytelling and Play

Story Makers™ is one big invitation to play. This range offers a two-level play space with bright colors, friendly shapes, and rounded edges. With multiple design options, panels can change according to your plan, making Story Makers™ as flexible as possible.

When playing on the structures from Story Makers™, they can create and act out their own play story. Little explorers love a good story.

# FAIRY TALES BY H.C. ANDERSEN™

## Once Upon a Time...

The Hans Christian Andersen-themed playground equipment comprises enticing and standalone play structures. Children learn about good social conduct through fairy tales' moral insights and universal truths.

Whether it's digital or physical play, these fairy-tale structures provide hours of play activities for one-to-eight-year-olds.

# MOMENTS™ THEMED PLAY

## Harvesting Fun

Play is about preparing for life and reaches its strongest potential in inspiring young imaginations through the imitation of reality. Farm-themed playground equipment opens the door to adventures that would otherwise be “off limits”.

The thrill of climbing on a giant tractor triggers real-life scenarios on the farm, where the barn is stocked, not with hay, but with stacks of endless fun.

# MOMENTS™ PRESCHOOL

## Play it Your Way with Moments™ Play System

The Moments™ Play System allows you to create a play solution that reflects your ideas. The elevated playhouses give young children a sense of thrill, and being above ground level trains the child's spatial awareness.

Choose between various play activities and material options and your play vision can soon become a reality.

See options on the FLEXIBILITY page.

# MOMENTS™ HERCULES

## Pre-school play fit for inner cities

MOMENTS™ HERCULES is a rock-solid and fun play experience for pre-school children. The materials used in this product line are carefully selected to provide a long lifespan and are highly vandalism-resistant, making this solution ideal for a city's unsupervised areas.

The play activities within MOMENTS™ HERCULES pre-school stimulate the pre-schooler's instinct to play through a range of traditional play activities, like sliding, gliding, climbing, and the exploration of cognitive elements.

The many ground-level activities and low entry points of the structures make MOMENTS™ HERCULES highly inclusive ensuring play for all users.

# FLEXIBILITY

With a variety of colors and part options, we offer lots of flexibility and customization with our standard products.

Nature

Classic

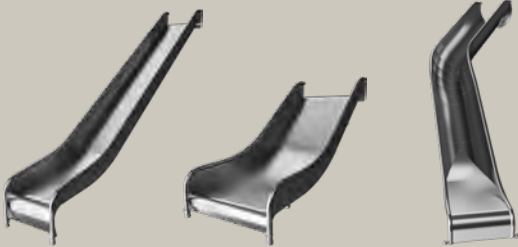

Modern

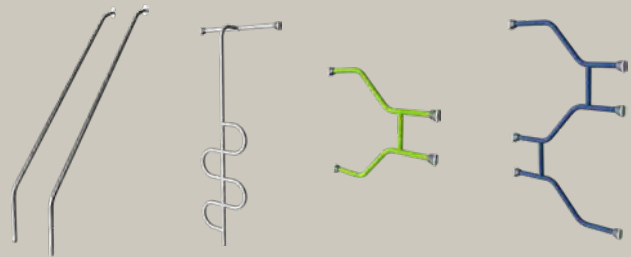

# OPTIONS

Straight, wide and curved stainless steel slides

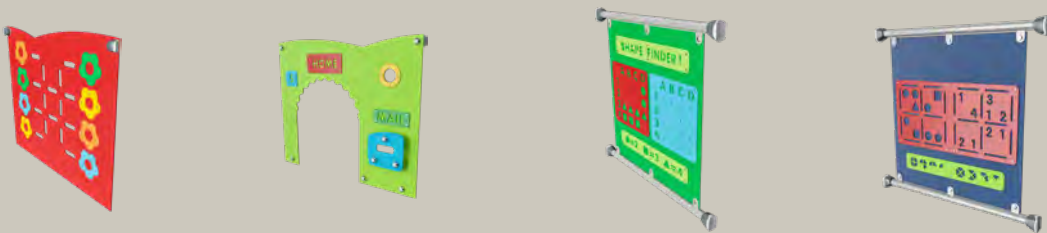

Multiple egress, access and agility options

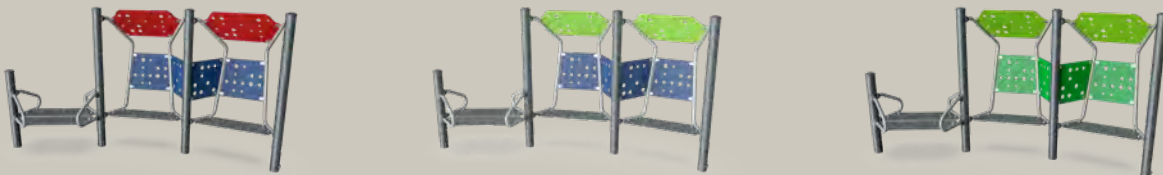

NOTE:  
Steel slides heated by the midday sun can cause severe skin burns.

Play panels

Color schemes

## More flexibility

Contact us for more information on the wide range of options for configurable playground equipment. Please note that prices and delivery terms depend on specified configurations.

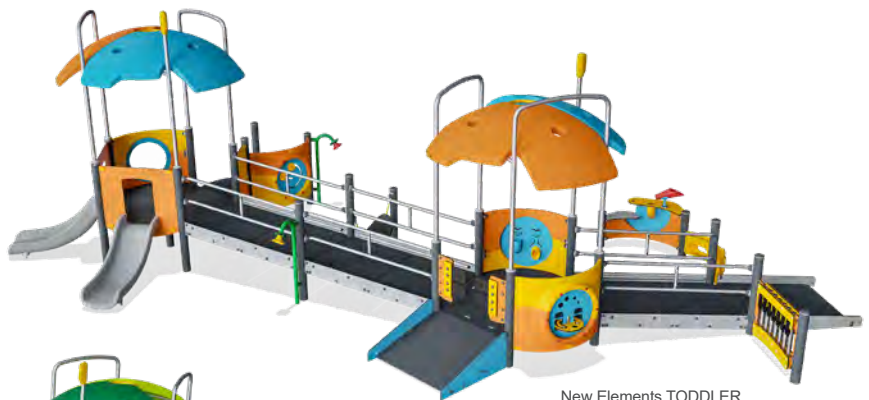

# KOMPAN Ramp Solutions

## Play solutions for all

To create equity in public play is a main obligation of our communities. This implies equal access to playgrounds for all citizens, including children or parents with differing abilities. For some playgrounds, ramps are the best solution to provide accessibility and usability.

KOMPAN ramp solutions let children and adults in wheelchairs participate in play

by giving them a free pathway into and around in the play structure. Along the path, they find interactive play activities placed at an appropriate height before finishing off at the top of the structure with a rare view from above. The path through and around the ramp structure is paved with joyful and educational play activities for all children of all abilities

## A LOOP OF PLAY

KOMPAN ramp solutions offer a wide variety of gross and fine motor play events that can be used from the inside and the outside of the structure. There is a rich range of auditory and manipulative play

elements. The play can take place in and on the ramped structure as well as on the outside of the structure, welcoming all users. The layout of the ramp structure generates a loop of play, allowing for

access to the elevated platform through a ramp as well as an inclined boarding net that allows several users to access at the same time.

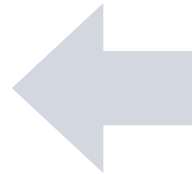

# KOMPAN Shading Solutions

## Children should only worry about play

When playing outdoors on sunny days, children need protection from the harmful rays of the sun.

A KOMPAN shading solution is an easy and secure way to do just that. The integrated sails provides a large shaded area that

slowly moves over the play structure and areas around it. By reducing the intense heat on the hottest of days, the children are safe from sun fatigue and happily play for longer.

### CUSTOMIZED SOLUTIONS

The sails can be added to Moments™ and Elements™ Play Systems. Please contact us for further guidance and information.

## Shade material

Sails are manufactured from Commercial 95 High Density Polyethylene (HDPE), a knitted shade cloth manufactured solely for tensioned sunshade structures.

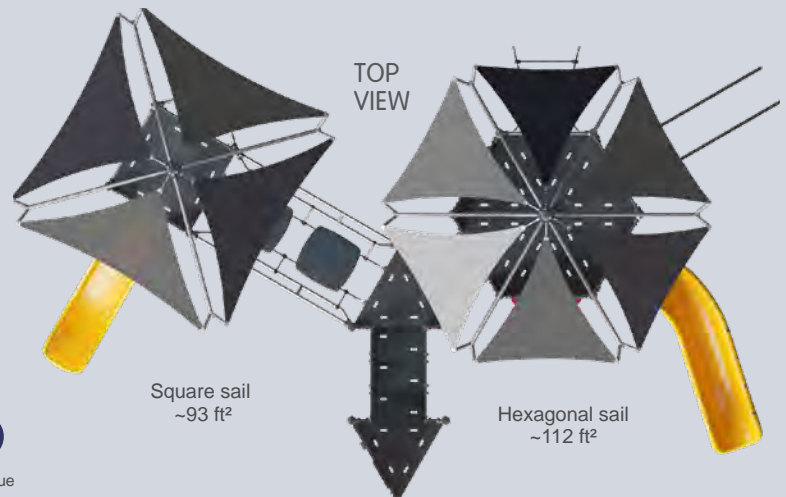

The material is then treated with UV stabilizers to give it a very long life in direct sunlight. KOMPAN shades will not rot or fray,

and the high quality lock-stitch construction gives superior tear strength. The shade sails are only constructed from commercial grade knitted shade-cloth with up to 96% UV block. In light rain, the water will run off to the lowest point, but the water will drain through the fiber in a heavier downpour.

## Open integrated shading

Shade solutions consisting of four or six individual sails placed in different layers are available for the large square deck and the Mega Deck platform for Moments™ and Elements™ play systems.

CHOOSE BETWEEN 6 DIFFERENT COLORS:

# Fully closed Shades

## Maximize protected area

Closed one-piece shades ensures full coverage of the shaded area below the integrated shade.

The shades are attached to the steel frame in each corner and tensioned by a pully system.

## Shade material

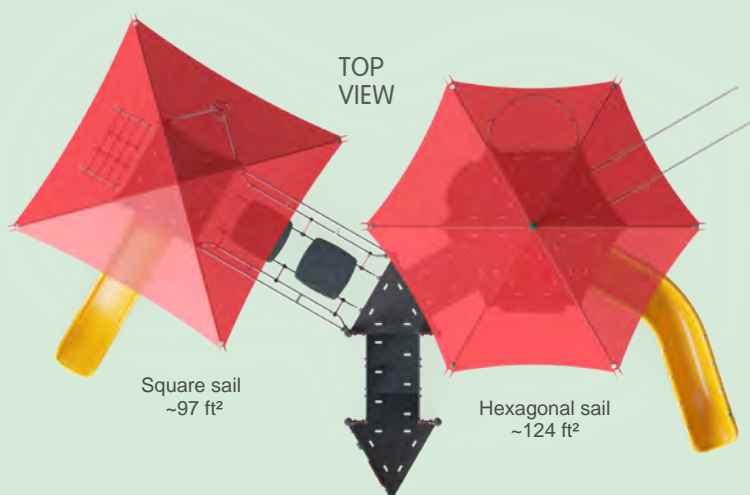

This architectural shade cloth is a heavy-weight, lock-stitched knitted HDPE fabric designed specifically for tension structures. We only use PTFE (Teflon®) thread with a minimum of 2000 denier, which does not deteriorate from exposure to the elements, including UV radiation!

In high stress areas like the corners of the shade, we add internal webbing reinforcements with extra layers of fabric. All cable pockets are double folded, and stainless-steel plates are sewn into the fabric corners to prevent fabric from ripping out. A truly outdoor-proof shade solution designed to last for many years.

## Closed integrated shading

These integrated shades are available for all deck shapes and sizes within Moments™ and Elements™ play systems.

CHOOSE BETWEEN 6 DIFFERENT COLORS:

# ELEMENTS™ TODDLER

## Responsive Play for the Youngest

Physical play is essential in fostering child development. The Elements™ Toddler series provides a safe world of play activities for the youngest. Responsive play activities stimulate the child's motor skills and gently push toddlers to explore and learn through play.

Playing on the Elements™ Toddler series helps toddlers develop skills to prepare them for kindergarten, school, and life.

# ELEMENTS™ GROW

## Agile and Exploratory Play

Elements™ Grow is a world of agile and exploratory play activities that enhance children’s holistic development. Playing on these structures, children face age-appropriate physical challenges that gently push their boundaries and help them grow.

The physical challenges develop the child’s motor skills, helping the child become self-confident when playing with friends and exploring the world.

See options on the FLEXIBILITY page.

# ELEMENTS™ GO

## Free Play with No Instructions

Elements™ Go is a series inspired by children and their innovative and creative approach to play. Observing how they climb on the exterior surfaces of regular post-and-platform playgrounds in search of new challenges inspired us to create structures to enhance this curiosity.

Children are inherently curious and masters of innovation. Thankfully, playgrounds don't come with play instructions.

# GALAXY™

## A Modern Playground for Tweens and Teens

Teens and tweens like to play and hang out in playgrounds. Therefore, we developed a series of equipment for older children as a crossover between playgrounds and fitness sites.

Galaxy™ was the world's first solution to move away from the traditional post-and-platform and play-tower designs. It also became the first free-play design to include all children regardless of abilities.

See options on the FLEXIBILITY page.

# BLOQX™

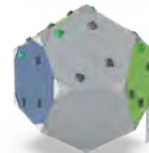

## A Fun, Simple, Scalable System

Bloqx™ offers a unique and intense climbing experience. Sometimes exhausting – even for tweens and teens! That's why the design accommodates rewarding hang-out spots on the upper surface of the pentagon shapes.

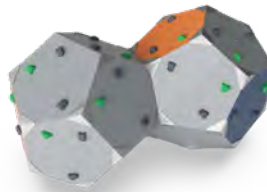

The Bloqx™ design is a favored selfie platform, which tells us that Bloqx™ has made its mark with the target group: Tweens and teenagers. That's pretty cool.

# FREESTANDING PLAY EQUIPMENT

# SUPERNOVA, CAROUSELS & SPINNERS

## Spinning with Joy

Children need the dizzying input that comes from spinning. These important movement experiences help the child's nervous system mature and organize. Besides being great fun, the spinners and carousels also help children train their sense of balance.

Our innovative spinners and carousels attract children of all ages and abilities and the best part is: They LOVE it!

# TWISTING NETS

## Rotating Together

No child can resist the magnetic attraction of these dynamic Twisters. The freestanding Twisting Rope Nets combine two favorite play activities in one play structure: The challenge of climbing and a thrilling rotation.

Twisters are not only a fun and collaborative play activity but also cool hang-out spots. Hang on and enjoy the ride!

REALIZE YOUR VISION IN MINUTES

# Design Files Available for Download

OBJ, Revit, SketchUp, and DWG file formats for KOMPAN products are available for download.

Visit our website to retrieve a complete package containing product variants, colors, and material options for direct use in your design program. Downloading these formats lets you design your playground or fitness area in minutes.

# BALANCING AND CLIMBING

## So Simple, Yet so Important

A somersault bar, stepping pod, or climbing net may not look like much, but through fun play, they contribute to childhood development. Rotating trains the child's sense of space, climbing trains the child's cross-coordination skills, and jumping trains the child's agility and balance.

All these motor skills are vital to navigating the world confidently, for instance, when judging distances in traffic.

# SPRINGERS

## KOMPAN Invented a New Way of Rocking, and We've Been Rocking the World Since 1970

This is where it all began: A red hen on a bright blue spring. The Crazy Hen was the world's first play design to deliver a fun and more functional alternative to the traditional seesaw. Today, the iconic shape is recognizable worldwide.

Every playground springer is just waiting for a child to unlock their creative potential. And you don't need a second user – or a counter-weight – to get rocking!

# USE OUR TOOLS AND SITE-PLANNING RESOURCES

to make your playground and outdoor fitness planning simple.

**Our site-planning resources and tools will help you with every step, such as:**

- Fundraising
- Installation
- Choosing the suitable playground or fitness equipment for your community, municipality, or school

# SEESAWS

## The Fun Thrill of Rocking

Seesaws add a social dimension to the joy of rocking. Rocking on a seesaw trains children’s muscles, motor skills, balance, and coordination. The spacious design and sturdy back and foot supports allow children of all abilities to play together.

The fun thrill of rocking will make children return for more. There is nothing better than rocking with a friend – or two!

# SAND & WATER PLAY

## A Vital Part of a Child's Creative and Cognitive Development

Playing with sand and water has a substantial developmental impact on a child. For example, building structures in the sand fosters a feeling of accomplishment in the child and sparks their creative thinking. Sand and water stations also encourage children to play together.

Our sand and water stations come in many shapes and sizes with an appealing look that awakens the curiosity in children.

# PLAYHOUSES AND THEMED PLAY

## Familiar, Child-Sized Spaces in a Big World

The smaller-scale open playhouses are a strong play motivator for the youngest. The openness of the play space allows many children to play together from the inside and the outside. It's the first stage of forming a community.

From the Villa to the Allotment, themed playground playhouses open doors to understanding the value of friendship and imaginative play.

# Visualize Your Outdoor Activity Area

Are you considering your options for an outdoor activity area? ImaginIt, the KOMPAN augmented reality app, lets you visualize how different styles and themes fit your chosen area.

# TODDLER PLAY EQUIPMENT

## A Stimulated Toddler is a Happy Toddler

The happiest toddlers are those who experience age-appropriate stimulation and challenges. The playful designs in our Toddler Equipment collection draw on familiar connotations and invite children to engage in dramatic, developmental play.

Whether climbing the tallest giraffe or driving a pretend car, our toddler universe gently stimulates and guides the little ones to understand the world around them.

# TODDLER STATIONS

## Themed Play Stations for Play and Learning

Toddler stations mimic real-life environments and appeal to infant and toddler curiosity: lots of details to explore and play at eye level. Play panels stimulate their creative and cognitive skills and provide the opportunity to play from all sides.

The toddler stations are placed on top of the surface without fixation to the ground, making it a movable, flexible solution for indoor or outdoor use.

# PLAY PANELS

## That Little Extra Fun for Play and Learning

In free play, children learn by following their instincts, developing fundamental human skills. Adding play panels to your playground structure creates a learning dimension to the play experience. Through music and themed play panels, children learn about different topics.

And yes, adults can join the play and guide the children to learn new things while having fun, too.

# ZIPLINES

## The King of Fun, Thrill, and Action

The line for the cableway is always long! Whether you're four or twelve, the cableway is just great fun. Besides being fun, the cableway teaches children several important lessons and skills. They learn to wait their turn and hand over the seat to the next in line.

All across schools and parks, one look at all the children lined up for playground cableways, and you can understand why. What a ride!

# MEETING POINTS

## Comfortable Hangout Spots

As children grow older, they become more interested in social play and interaction. Comfortable meeting points should be available in any school playground. Our Meeting Point solutions cater to small and large impromptu social gatherings and offer a place to relax.

Meeting Points are comfortable hang-out spots for a chat or a break, whether on the swaying hammock or the bench.

# SIGNS

## Customizable Signage

Signs are an essential way to make relevant information available for the users of private or public areas. E.g., general or practical information or instructions about the use of a playground, opening hours, ideal user or age groups, sponsors, or contact information.

Our customizable signage is flexible regarding text, signs, and symbols, enabling you to deliver the right message.

# PORTAL SWINGS

## Swings Children Keep Coming Back To

Of all play activities, swinging is a favorite. Apart from being great fun, swinging trains children's agility, balance, coordination, and spatial awareness. These motor skills are crucial to judging distances and navigating traffic safely.

Whether it's for a quiet moment alone or swinging with a group of friends, children love to swing.

See options on the FLEXIBILITY page.

# SWING SEATS

## A Swing for Every Need and Ability

We want everyone to enjoy the thrill of swinging. Our wide range of swings cater to various abilities and age groups. We offer everything from a baby swing seat to a five-way swing solution and an inclusive swing seat.

The Bird's Nest is popular with tweens and the You & Me Swing is perfect for sharing the swinging experience with caregivers.

# UNIQUE SWINGS

## Swinging Together – the More, the Merrier!

Not only is swinging the most popular activity for playful children, but swinging together is an irresistible invitation for all children to play – and simultaneously train vital skills. The socio-emotional effect of swinging together cannot be overestimated.

The soothing or wild swing movements create a joyous thrill, laughter, or relaxation, whether swinging together or alone.

# CLASSIC SWINGS

## The Classic Swing Never Grows Old

To swing is a classic play activity, as is the design of KOMPAN's classic swings. The traditional look makes it the preferred design in many playground settings. You can construct your swing solution from our wide range of swing seats with as many sections as possible.

The standard swing and baby seats can include anti-wrap clamps to prevent the chains from turning.

See options on the FLEXIBILITY page.

# COROCORD™ ROPE PLAYGROUNDS

# COROCORD™ SKY PLAY

## Reach for the Stars

A Sky Play structure is an entire playground in one play system. At the top of the structure, the adventurous sky cabins await. The route to the sky cabin goes through an imposing climbing net where children can climb to safety and experience a sense of achievement.

Unleash your inner explorer and embark on a journey that'll have you reaching for the stars – literally!

# COROCORD™ PLAY TOWERS

## Play Your Way to the Top

Corocord Play Towers offer a variety of ways to get to the top. Each level offers a new and colorful world of play where children can pave their way in a manner suitable for their age and abilities. The net structures challenge the children's cross-coordination skills and physical strength.

Moving upward, new climbing challenges arise and boost confidence. Talk about an elevated experience!

# COROCORD™ LOOPS

## Social Seating and Togetherness

Loop sculptures draw everyone's attention with their fascinating shapes and bright colors. These eye-catchers hold multiple loop play activities. While children slide, climb, balance, crawl, jump, or dangle, they practice essential skills in child development.

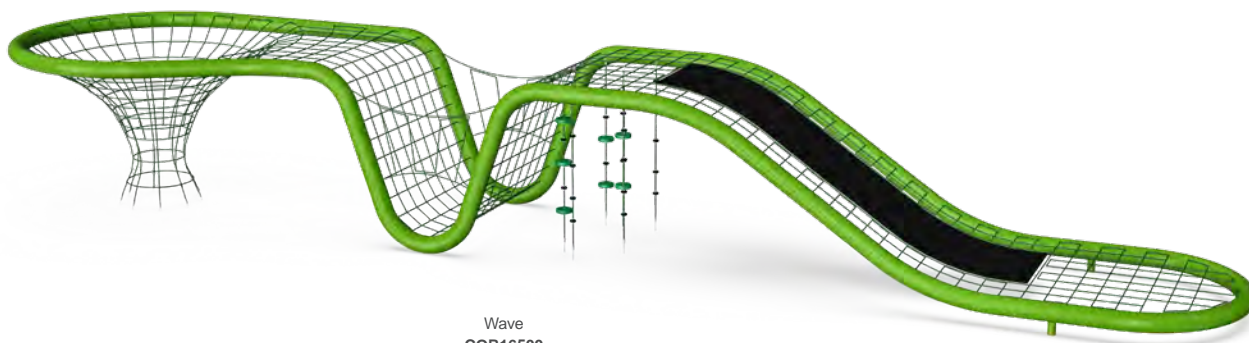

Corocord Loop structures are here to make playtime extraordinary, one thrilling adventure at a time!

# FLEXIBILITY

With a variety of colors and part options, we offer lots of flexibility and customization with our standard products.

Rope colors

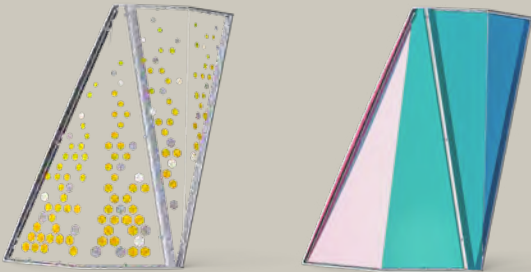

Loop colors

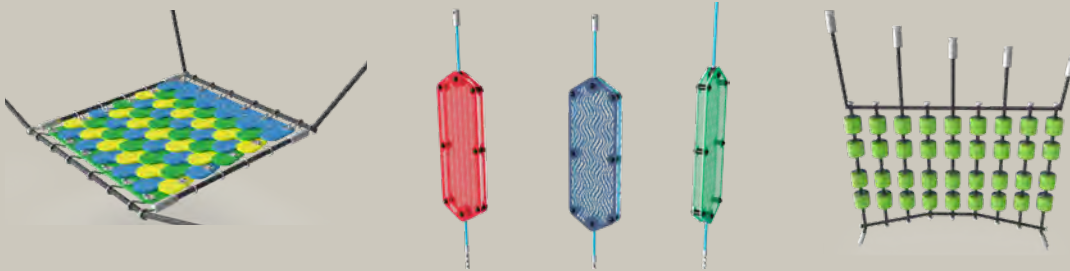

Graphic or dichromatic panels

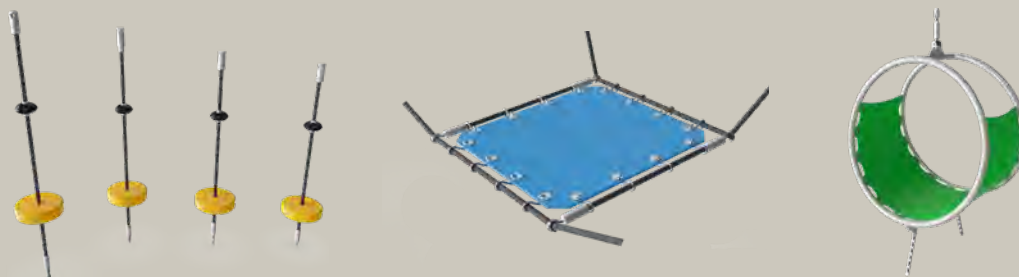

Talk tubes

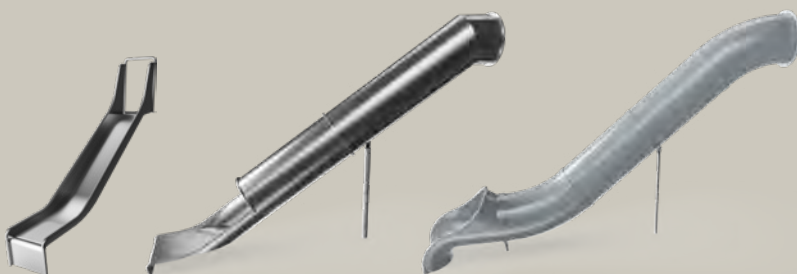

Sensory and creative activities

Climbing and hang-out activities

Slides in PE or stainless steel

Anti-climb panels

NOTE:  
Steel slides heated by the midday sun can cause severe skin burns. We recommend pointing steel slides away from the midday sun or using PE slides or shading.

## More flexibility

Contact us for more information on the wide range of options for configurable playground equipment. Please note that prices and delivery terms depend on specified configurations.

# COROCORD™ DYNAMICS

## Furniture for Indoor and Outdoor Use

Rotating, swinging, and bouncing fun – hardly any child can resist the magnetic attraction of these dynamic products. The play structures deliver high-quality fun, drawing on the fundamental gravitational forces, while powerful movement experiences help the child's nervous system mature and organize.

Let the gravitational forces take you for a spin and enjoy a thrilling ride while giggles echo for miles.

# COROCORD™ SLIDES & HILL CLIMBER ROPES

## Slide, Climb, Repeat

Enjoy the fun of an embankment slide as you share the thrills with your friends, zooming down the same hill and climbing back up over and over again. Hill Climbers perfectly supplement embankment slides: available in different lengths, you can find the perfect fit for your hill slopes, whether a gentle 20° or a more daring 60°.

Start cheering and let the sliding, climbing fun, and belly-laughing begin!

# COROCORD™ MINI DOMES

PRODUCT CONFIGURATOR  
www.kompan.com

## Crawl and Climb for the Little Ones

This Mini Dome is a wondrous climb-and-crawl structure for little explorers. With inviting resting points for socializing, gently bouncing climbs, and intriguing play panels, this small structure is big on play value for 2-to-5-year-olds.

Children can crawl to the top or play peekaboo at ground level beneath the structure. The abacus and mirror play panel ensure hours of exploration and play.

# COROCORD™ SPACENET™

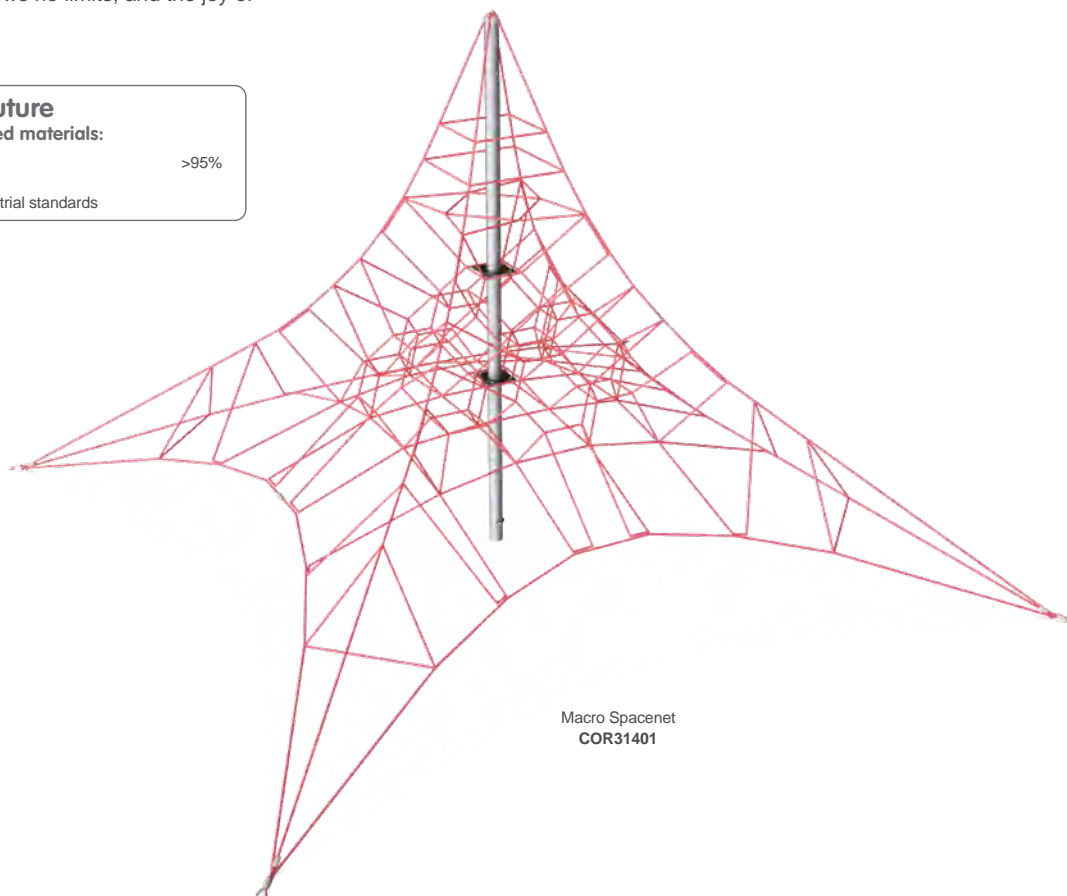

## Three-Dimensional and Sky-High Play Activities

Very few play spaces incite children to move around in all directions as the Spacenet does. This sky-high playspace sparks their imagination as they venture into a thrilling three-dimensional universe. A Corocord Spacenet is superior for developing a child's cross-coordination and physical skills.

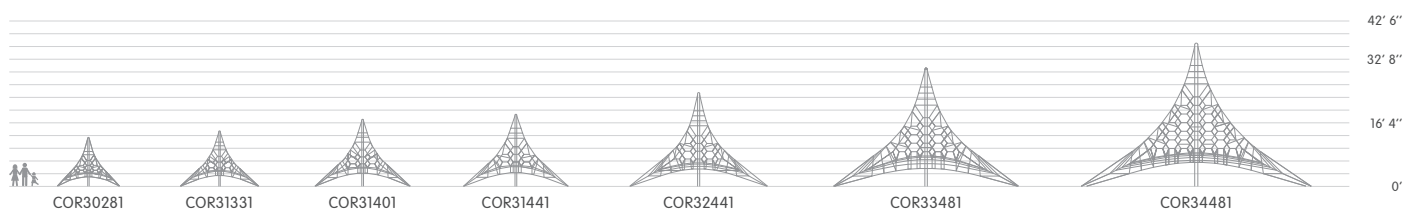

With a Spacenet, the horizon knows no limits, and the joy of exploration knows no bounds.

# COROCORD™ MONKEY TRAILS MINI

## Trailblazing Play for the Youngest

Prepare to witness joyful laughter as children climb, swing, and balance their way through play spaces above and below. With age-appropriate challenges for 2-to-6-year-olds, the Monkey Trails Mini will continue to grow with children as it consists of play activities for the entire age span.

Together or alone and for many abilities, the Monkey Trails Mini has thrilling play activities for all.

See options on the FLEXIBILITY pages.

# COROCORD™ MONKEY TRAILS

## Get in Motion!

No other play equipment offers so many different opportunities to get in motion and use mind and body skills as the Corocord Monkey Trails do. Balancing, bouncing, climbing, spinning, and sliding are all possible activities. The children have to navigate and find ways through the complex rope-and-activity jungle.

Brace yourselves for a wild climb of endless possibilities to get body and mind in motion like never before.

# COROCORD™ EARLY CLIMBING

## Fun for the Little Climbers

Climbing is fun and an important skill for a child to master, especially in the younger years. When climbing, the child develops cross-coordination skills, stimulating the two hemispheres of the brain and ultimately helping the child learn to read.

Get on the climbing path! Even young, more insecure climbers can get a fun and developmental experience.

# COROCORD™ PLAY BRIDGES

## Bridging the Gap Between Play and Imagination

Imagine the sheer bravery it takes to keep stepping forward, suspended high in the air, peering down at the ground below. That's just thrilling! A trip across the bridge boosts the child's self-confidence and trains the child's spatial awareness.

Take the obvious route across the bridge, or explore an entire world of fun above and below, just waiting to be discovered.

# COROCORD™ FRAME NETS

## Enter the Realm of Three-Dimensional Play

Frame Nets are gateways to a vibrant, three-dimensional playground where kids rule the domain of fun and exploration. As children climb from one rope to another, a symphony of coordination unfolds their cross-coordination skills and enhances physical strength.

With every twist and turn, young minds ignite with the power of logic and problem-solving while unravelling mysteries on the way to the top.

See options on the FLEXIBILITY page.

# NATURE PLAY

# ROBINIA FANTASY

## Escape to the Forest of Fantasy

In the enchanting realm of the fantasy universe, imagination and play intertwine. The quirky expression of the Robinia Fantasy play structures is unique and on nature's terms. The signature posts get their authentic woodgrain pattern from when they were forested in their natural state.

Climb towards the eternal battle between good and evil, or swing to escape the Warlock's magic spell.

See options on the FLEXIBILITY pages.

# ROBINIA VILLAGE

## It Takes a Village

The Robinia product portfolio is a collection of organic play structures with something for everyone - from enchanting playhouses designed for the youngest to large play structures for the oldest.

Robinia structures add a natural look to suburban landscapes or infuse an organic touch into bustling cityscapes. Whether you want your playground to stand out or blend in, Robinia is your answer.

See options on the FLEXIBILITY page.

# ROBINIA PLAYHOUSES

## A Cozy Play Space for the Youngest

House-themed playground equipment offers a sense of familiarity and comfort for the young. Combining the “house” concept and the incorporation of nature ignites their imagination and inspires hours of play.

In other words, Robinia Playhouses blend the benefits children get from exploring familiar concepts like “house” or “home” through play with the wonders of nature.

### For a greener future

# ROBINIA CASTLES

## Captivating Castle-Themed Play

A Robinia castle-themed play structure has creative play activities on all levels and floors. Its impressive size entices children of all ages to strategize how to defend or conquer the castle, helping them develop social and cognitive creative skills.

Prepare for action and adventures suitable for queens and kings and start making your way to the castle tower.

# ROBINIA SHIPS

## A Treasure Trove For Playful Children

Pirate-themed Robinia ships are packed with adventure-creating activities that inspire children to play and explore for hours. Themed play entices children's imaginations and encourages role-play which builds their confidence – imagine achieving a team goal when victory prevails.

If pirates have conquered your playground, it's time to get everybody on deck to guard the treasure!

# ROBINIA THEMED PLAY

## Full Speed on Imagination

Play is about preparing for life. Themed play is most forceful in stimulating youthful imaginations when mimicking reality. Themed playground equipment opens the door to adventures that would otherwise be “off-limits.”

The thrill of flying the Propeller Plane or driving the Unitruck prompts real-life scenarios, where the imagination of going from one place to another brings endless fun.

### For a greener future

#### Robinia wood:

Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

# ROBINIA SPRINGERS

## Nothing Beats Rocking

A mother's gentle rocking is a soothing feeling. As children grow, rocking becomes a fun feeling. Rocking trains a child's sense of balance and spatial awareness – senses that help the child concentrate and navigate safely in traffic.

For younger children, rocking through their own effort or with a friend is the best feeling. Find your favorite bug-themed springer or seesaw and start buzzing.

### For a greener future

# ROBINIA DYNAMICS

## Vital Tummy-Tickling Play Activities

The Robinia Dynamics portfolio entices children of all ages and abilities to come and experience the thrilling feeling of sliding, spinning, or swinging. Children need the sensation of butterflies in their stomach from spinning, sliding, and swinging to help their nervous system mature and organize.

Spinning, sliding, and swinging are vital in child development – the best part is that children love it!

# ROBINIA ZIPLINES

## The King of Fun, Thrill, and Action

The line for the cableway is always long! Whether you're four or twelve, cableways are incredibly fun and exciting. Cableways teach children several essential skills. Through interaction with each other when playing on the cableway, they learn to wait their turn and hand over the seat to the next in line.

A cableway is a thrilling playground asset that unites generations, abilities, and playful minds alike.

# ROBINIA OBSTACLE COURSES

## Climbing Challenge - Bring it On!

A Robinia climbing trail is a challenge that children of all ages and abilities will want to take on. Whether playing “the ground is lava” or other creative games, children train their balance and social-emotional skills and practice essential life skills without noticing.

Balancing, swaying, and climb-and-crawl activities are immense fun and the accompanying challenge is embraced with enthusiasm!

### For a greener future

# ROBINIA BALANCING

## Down-to-Earth Learning

Once children embark on a balancing trail, they develop essential life skills without noticing. Balancing helps train their eyesight and ability to concentrate. Two fundamental skills that both improve children's readiness for school and performance when going to school.

Watch out for crocodiles in the lagoon or get ready for a thrilling game of "the ground is lava."

# ROBINIA CLIMBING

## Challenging Climbing Structures

Remember the sense of achievement when conquering the giant tree in your neighborhood? Robinia climbing structures create that same wonderful experience! Making their path to the top, children cultivate self-confidence and develop cross-coordination skills that contribute to their reading development.

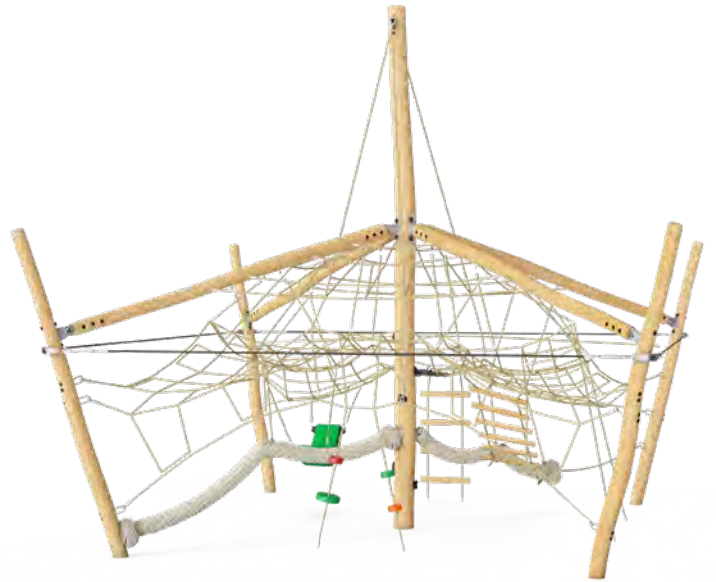

Children love to climb trees. Not because it's easy but because it's challenging.

# ROBINIA PLAY, ACT & LEARN

## Add New Dimensions to Play

The Robinia Play, Act, & Learn range offers sensory, ground-based creative play for the youngest children. As an ultimate play starter, this range takes children through a creative play world with activities stimulating their cognitive and social skills.

Whether on the stage, drawing on the chalkboard, or playing on the music panels, the rhythm of play resonates with joy.

# ROBINIA PLAY PANELS

## That Little Extra Fun for Play and Learning

Play panels for the youngest add a learning dimension to play as the panels help guide the child's learning towards specific topics. Children learn by drawing on the chalkboards and playing together on the music panels.

Watch them blossom as their skill set grows when participating in creative play with friends, caregivers, or independently.

# ROBINIA SAND & WATER PLAY

## Fun, Sensory, and Messy Play

We all know the sensory feeling of sand running through our fingers. Why? Because we've done it so many times as children. Constructing things in the sand gives children a sense of success. It stimulates their creativity while learning to take turns and observe how their peers' imaginations unfold.

Sand play is messy but so much fun! So kids, pull up your sleeves and start mixing sand and water.

### For a greener future Robinia wood:

Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

# ROBINIA SWINGS

## Swinging – A Natural Joy

Of all play activities, swinging is a favorite. Swinging trains children's balance and coordination as well as their spatial awareness. These motor skills are crucial for judging distances, navigating traffic safely, and sitting still in school. Children also love to swing!

Whether it's a quiet moment swinging alone or wild play with friends on the Birds Nest swing, the sensation of swinging is unparalleled.

See options on the FLEXIBILITY page.

# OUTDOOR FITNESS

# CIRCUIT TRAINING

## FITNESS SOLUTION

Circuit Training is a compact and efficient training area with cardio and strength equipment. This outdoor circuit includes some of the most popular indoor cardio and strength machines, which will ensure the user an effective full-body workout. The machines are adjustable, so they fit the user's fitness level.

The machines are easy to use and resistant to wear and tear, which makes the site perfect for communities and parks. A timer is placed in the middle of the circle, making it suitable for interval training or other timed workouts.

# FIT FOR ALL

## FITNESS SOLUTION

This site is created based on the principles of universal design. The site works equally well for disabled, elderly, untrained, and fit people. While not every item may suit everyone, anyone can discover items that are valuable to them, making the site inclusive and accessible. The strength machines can be used directly from a wheelchair or with easy transfer from one. The different cardio options ensure

that there is something for all and the equipment use zones guarantee ample space to move and maneuver around. The equipment is color-coded with bright colors to make the different workout zones easy to recognize. This makes the site welcoming for everyone.

# STAY FIT

## FITNESS SOLUTION

As we advance in life, physical mobility is vital for us. To avoid becoming restricted, we need to keep our bodies mobile and our minds healthy. This solution is designed to promote active and healthy aging and to make injury rehabilitation available outdoors in the public space.

The beautiful garden invites everyone to join in and be active at their own level. It's easy to do with adjustable strength and cardio equipment, ensuring easy maintenance and development of endurance and strength. Falling is a serious concern for older people.

Accidents often occur because the person is unable to overcome or react to minor changes in the surface they walk on. By using fitness equipment on a daily basis, older adults can improve their balance, endurance, strength, and flexibility – and ultimately, lower their risk of falling.

# ROOFTOP GYM

## FITNESS SOLUTION

On the rooftop, this gym has created the perfect extension of their indoor offering! A space that allows their members to do a full workout routine while enjoying the outdoors, benefitting from all the positive effects on their health and wellbeing.

By using a similar layout to the indoor area and creating different workout areas, it's easy for the members to move around and find the activities they prefer.

The great thing about this training space is that it can just as easily be created in a public park, as all the equipment is certified for usage in unsupervised and public areas.

# ACTIVE BOARDWALK

## FITNESS SOLUTION

The elegant curved structures fit perfectly into any environment, be it boulevards, promenades, parks, or on top of a skyscraper. This solution requires little safety surfacing and can blend into any natural setting. The exclusive design and organic shapes invite and attract people to come and exercise. Additionally, the fact that there is something for everyone makes it motivating for users of all ages and abilities.

The bikes motivate people who are out for a stroll to sit down and get started! While they are enjoying the view, they can get their daily

dose of cardio training. Strength can be improved by using the magnetic bells, starting with low weights for beginners and heavier weights when looking for a challenge. The training value is huge, and countless exercise variations can be made. It's a perfect solution for a small space with extra large ambitions. Big enough for a complete sports team or a school class, this solution will fit anywhere.

# PLAY & TRAIN

## FITNESS SOLUTION

The combination of play and fitness equipment allows parents to work out while their children enjoy the playground. Parents can be active role models, inspiring their children to live a healthy and active life throughout their childhood and become active adults. The wooden fitness equipment fits perfectly with the surrounding nature and offers a variety of different workouts for adults.

Working out for children is done through play, and with this playground, they improve their muscle strength on the BLOQX, develop a good balance when spinning on the Supernova, and train their endurance when playing in the Giant towers. This site will help provide an active lifestyle for children and adults alike.

# ACTIVE TEENAGERS

## FITNESS SOLUTION

The active teenagers' fitness site is based on knowledge about the preferences of this age group. We know that fitness training is one of their preferred activities and that teenagers like to be social and have fun. This site perfectly combines cardio and strength equipment with a game arena and challenging street workout. Another great thing about this mix is that there is something to do for all types of teenagers, no matter their skill level, weight, or gender. To feel included is ex-

tremely important at this age. Therefore, the site must also be a space where teenagers can hang out and enjoy themselves. The Loop furniture range provides the age-appropriate informal hang-out zone that is so important. The key to activating teenagers is providing a suitable, attractive space.

# FITNESS PACKAGES

## WOOD – MORE THAN 70 EXERCISES

The Wood Fitness Package gives you more than 70 different bodyweight exercises, emphasizing easy, as well as challenging, options. The low pull-up bars and the push-up bars at differing heights are examples of easy starting points. There is no limit to what

you can do on this compact and versatile wooden outdoor fitness site if you are already fit. The prominent characteristic of this site is that all items are based on durable robinia structures.

## CIRCUIT – TAKE YOUR INDOOR CIRCUIT OUTDOORS

The Circuit is a compact, efficient outdoor circuit training area with cardio and strength equipment. This package is based on the well-known circuit setup and includes some of the most popular indoor cardio and

strength machines; the timer makes it perfect for interval training. Ideal for communities and parks, this package has all the best exercises for a high-paced, efficient outdoor workout.

## HOTEL – DON'T SEND HOTEL GUESTS TO THE BASEMENT

This package introduces a high-end outdoor fitness site, an excellent substitute for the traditional hotel fitness center. The site includes a cross-trainer and bike with a touchscreen and adjustable resistance, strength training for the whole body, steps, and functional

training. All equipment is presented in a beautiful and compact setting fit for the most attractive hotels.

See more solutions

Minor regional deviations can occur  
due to differences in safety standards

## PERFORMANCE – EVERYTHING IN ONE SITE

Performance is a versatile training space with equipment fit for many different age groups. Here, you can start your training on the cardio equipment or use the circled area in the middle of the site as circuit training,

as it has strength training equipment ideal for interval training. The training space is surrounded by an obstacle course where you can run, jump, crawl, climb through, and get a sweat-inducing workout.

# CARDIO

## An Adjustable Workout

The striking Cardio range has been awarded the Good Design Award for its innovative and high-quality design. Our Cardio bikes have adjustable resistance and are geometrically tailored to the user's specific workout needs.

The Arm Bike is wheelchair accessible and the Cross Trainer has an innovative sprint mode for shaping thighs and buttocks. All machines are designed to be on par with the best indoor machines!

# STRENGTH

## Full-Body Workout with Adjustable Equipment

The Strength range is a high-quality replication of an indoor exercise setup. These machines use the same biomechanics and resistance mechanisms as indoor selectorized strength machines. These are game changers for the outdoor fitness space!

The machines are safe, easy to use, and time efficient because of the controlled movements and the quick and straightforward resistance selection.

# CROSS TRAINING

## Scalable Functional Training in a Striking Design

Our Cross Training range draws attention from afar with its dynamic and modern look. The open-frame structures provide scalable resistance on innovative fitness equipment such as suspension trainers, pull-up bars, free weights, and parallel bars.

The Cross Training range is not only appreciated by fitness enthusiasts: In 2017, the range won the Good Design Award and the European Product Design Award.

# CROSS TRAINING - COMPACT

## Compact Functional Training

The Compact range has customizable features enabling an outdoor functional training solution that fits your needs and wants. Each section offers activities like kettlebells, suspension trainers, or pull-up bars, and is wheelchair accessible.

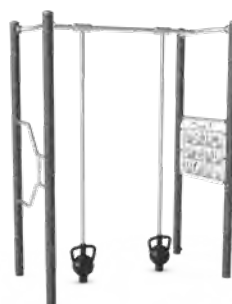

Available as standalone pieces or as joined structures in a circular or linear combination, this range is perfect for schools, municipalities, or housing areas.

# ROBINIA STREET WORKOUT

## Street Workout in a Natural Style

Our Street Workout range is also available in Robinia wood. This brings the urban street workout trend into a natural environment or the natural environment into an urban setting.

Robinia wood is a solid material with very high levels of natural oils. It's also the most suitable material for an outdoor fitness solution by providing long lasting quality with low maintenance needs.

### For a greener future

#### Robinia wood:

Nature's own material, harvested from European forestry. Robinia wood is known for its natural preservatives that make it long lasting in the outdoors.

## Personal Digital Trainer

The app provides motivation, education, and inspiration at the same level as a personal trainer. It guides you through exercises, suggests workout programs, and tracks activities.

SEE MORE

## Find a Fitness Site Near You

The app uses the user's location to point to the nearest KOMPAN fitness site. For each suggested site, the user can see which equipment is at the site and guides on how to use the equipment.

# A CONNECTED EXPERIENCE

## THE KEY TO CREATING POPULAR FITNESS SITES

The KOMPAN Outdoor Fitness app is the ideal digital personal trainer to kickstart your exercise journey. The app also teaches you how to use the equipment and keeps you motivated. It's an online exercise guide for all ages, fitness levels, and experiences.

- See videos of exercises for all types of equipment
- Get workouts for different goals and levels
- Find the nearest fitness site on the map
- Connect to cardio equipment and save your data in Google Fit or Apple Health

**KOMPAN Outdoor Fitness app**  
Available for download in the AppStore or Google Play.

# MULTI-SPORT

# CITY CENTER

## MUSA SOLUTION

In urban areas, space is often scarce, and contemporary city centers have not been planned to promote an active lifestyle. There is always traffic and people moving around, and, as we all know, balls and cars are not a good match. Luckily, there is a growing willingness to create spaces where children and adults can engage in ball sports and other activities. This Multi-Use Sports Area (MUSA) is the perfect solution for a densely

populated area because it is tall and fully enclosed, ensuring that all balls stay within the court. Secondly, it has an open and transparent design, making it easy to see what is happening on and off the court without obstructing views.

MUSA is a compact integrated system that offers a tremendous amount of functionality in a safe and enclosed environment.

# CENTRAL PARK

## MUSA SOLUTION

Public parks have gained immense popularity in recent times, drawing a diverse range of individuals. Some of them come to relax, read a book, or simply enjoy the green areas. Others come to meet people and be active. Sometimes, these different uses can create friction, like children running through a picnic chasing after a ball.

This can easily be prevented by creating active and non-active zones in a park, and a Multi-Use Sports Area (MUSA) is a great

way to delineate these zones. It's designed to keep the ball inside the court and facilitate many different sports.

By choosing the Wood Plastic Composite panels, the MUSA blends into the park environment while at the same time being maintenance-free. The lifetime warranty on the steel structural parts is important because this is a site that will be heavily used and enjoyed by many!

# SCHOOLYARD GAMES

1

## MUSA SOLUTION

A KOMPAN Multi-Use Sports Area (MUSA) is designed as a flexible system to fit any purpose or environment. The intelligent design allows the MUSAs to host many kinds of games, such as football, basketball, hockey, volleyball, tennis, handball, badminton, and so much more.

Ball sports areas in schools are popular and both teachers and children are enthusiastic about them. The teachers unanimously say that the fields have meant more physical activity with fewer conflicts during breaks.

The fields have also brought about more concentration and willingness to learn for the children in the classroom. And the children? They are extremely happy to have the right to an open invitation to fun and play!

The fully flat inside of the MUSAs will keep the ball in play, thus intensifying the game as there are fewer involuntary breaks. At the same time, children not playing in the MUSA won't be disturbed by balls flying outside the MUSA.

# MULTI-USE SPORTS AREAS

## Multi-Activities – The Ball is in Your Court

The MUSA is to sport what a convenience store is to shopping. It provides an optimized arena, a focal point for activity, and a place specifically designed to satisfy a need. These compact stadiums are an essential social asset in creating a healthy and engaging community.

MUSAs are where rules are not set in stone but most certainly agreed upon. The only common rule is to have lots of fun.

# COSMOS MULTI-SPORT

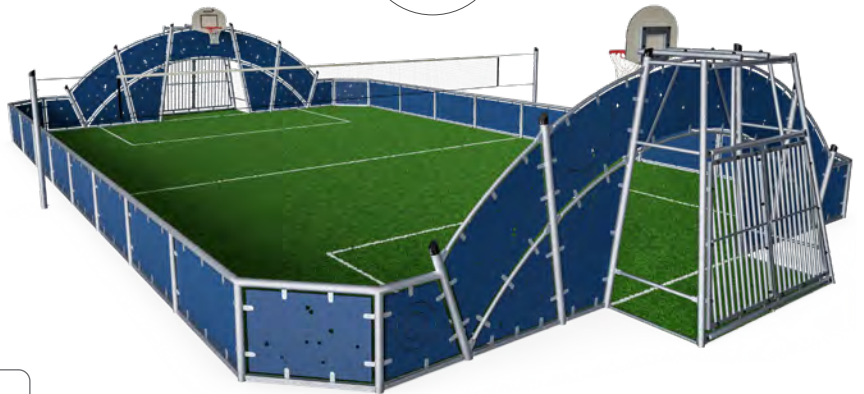

## A Player-Friendly Experience

### Cosmos Multi-Sport

Cosmos offers a variety of sporting activities. A basketball hoop at the NBA-standard height enticingly hovers over the area, while goals and nets invite a game of football or handball. Kickball games are great for social interaction, light-hearted competition and fostering friendships while promoting active and healthy lifestyles.

Similar to the rest of the Multi-Sport range, the Cosmos invites passing children to stop and ask, "Can I join?"

# AGORA™ PICNIC

## Inclusive Design as Standard

Agora Picnic is a flexible and freestanding furniture set for ten people. The bench and tabletop are made of high-quality ash wood and HPL (high-pressure laminate) or perforated steel. The steel frame is galvanized with the option of powder coating.

Keeping the sides open makes it easy for wheelchair users to approach the table and be comfortably seated. The picnic table is available in two sizes.

# LOOP

## Furniture for Indoor and Outdoor Use

The Loop family features an extensive range of modular elements perfect for indoor and outdoor use. At the heart of this range are infinite possibilities for creative and social interactions. Play or sit on, beside, and between for impromptu meetings or a break.

With sixteen modules in thirteen color options, this range is perfect for vibrant cityscapes, parks, schools, and recreational areas.

# FUNCTIONAL SAFE SURFACING

The choice of creative designers

**KOMPAN** provides high-quality wetpour surfacing solutions. From a safety perspective, this surfacing gives a brilliant shock absorption.

With multi-colored safe surfacing, designers can be very playful and the children love it!

Different colors, shapes, and graphics can support and highlight an overall de-

sign theme and also extend play from the equipment into the surface.

The soft yet firm surfacing is highly inclusive, making it possible for wheelchair users to easily access the playground. From an operational point of view, this type of surfacing provides a clean and comfortable surface with very low maintenance costs.

## ↑ CREATED FOR OUTDOOR FITNESS

Leveraging the surface to apply patterns for outdoor fitness significantly maximizes the training potential by offering more exercise opportunities.

## EMPHASIZE THE → ARCHITECTURAL EXPRESSION

of an area with surfacing available in multiple colors and several blends.

**RUBBER →  
GRAPHICS**

Different rubber graphics in 2D and 3D can emphasize a design theme and increase both play value and learning.

# COLOR OPTIONS

Multiple ways of customizing outdoor play and fitness solutions

## Hercules Rope colors

For rope used in play equipment, we offer eight different rope colors to choose from. The assortment is a wide span of colors ranging from elegant and expressive black or natural and toned-down sand color to a range of attractive and eye-catching signal colors. The ropes are made from >95% post-consumer recycled material.
